

MR-70 SERIES MASTER RECORDERS/REPRODUCERS

MR-70

PRICE SCHEDULE #2079

EFFECTIVE APRIL 6, 1964

Engineered and designed specifically for the master recording industry. Major design innovations have provided significant advances in electrical and mechanical performance: (1) over 70 db signal-to-noise ratio, an improvement of more than 10 db, (2) major reduction in electronic distortion, (3) built-in capability for still higher performance with future tape improvements, (4) greatly improved

tape motion, (5) maximum reliability through use of industrial/military grade nuvistors, (6) fully compatible with other 1/4 inch and 1/2 inch Ampex recorders, (7) human-engineered for easy loading and editing. See MR-70 Product Brochure for complete information on features and specifications.

NOTES:

- For 50 cycle versions, add -01 to the 60 cps catalog number; i.e.: 50 cps version of 4017011-01 is 4017011-02 — price is the same.
- For 230 volts, add "X" after the catalog number and in description add: "Strap for 230 volts;" i.e.: the 230 volt 50 cps version of 4017011-01 is 4017011-02X — price is the same.
- Voltage on standard recorders is 115 volts AC. Selector switch enables operation from 105 or 125 volts. Models strapped for 230 volts have switch for operation from 220 or 240 volts.

Ampex equipment may be purchased or leased under special Ampex finance plans.
