NOTES:

1. Prices are F.O.B. factory in Sunnyvale, California.
2. CCIR tapes may be duplicated only at a 1.1 speed ratio (7½ ips copies from a 7½ ips master at either 7½ or 15 ips; 15 ips copies of 15 ips masters at 15 ips).
3. Original recordings may be made to NAB standards, or, by purchase of plug-in equalizers to CCIR or AME standards (See PR-10 Series Price Schedule).
4. 230 volt operation may be accomplished by purchasing accessory transformer.
5. Tape, including color coded package and reels, is available from Ampex.
6. Accessories, including alignment tapes, maintenance kits, bulk tape eraser, etc., are available from Ampex. See Accessory Price Schedules.
