RECORDABLE COMPACT DISC

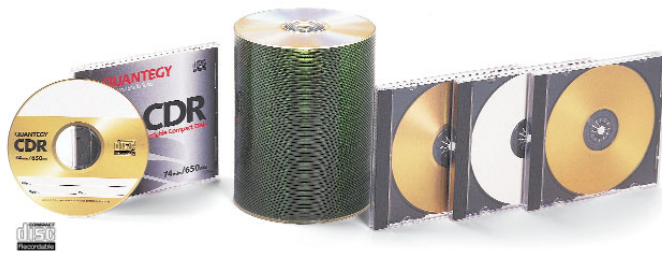

TRUSTED AND USED BY MORE
AUDIO PROFESSIONALS THAN
ANY OTHER CDR BRAND

PRODUCT OVERVIEW

Quantegy CDRs are the only professional recordable compact discs to offer a gold reflective layer. This ensures the ultimate in error-free recording and the longest archival storage of any CDR on the market. Quantegy CDRs use a unique surface data shield that protects the disc from scratches and abrasions that can cause recording errors. Whether you are working in an audio studio cutting demos and distributing masters or recording the latest revision to your company's CD-ROM, Quantegy has the CDR that meets your needs.

PRODUCT FEATURES

- Unsurpassed archivability through the use of a gold reflective layer and phthalocyanine dye
- Equals or exceeds all Orange Book part II and ISO 9660 standards
- Fully certified for use on high-speed recorders
- A full line of features, including preprinted, blank, bulk and custom printed discs
